

Wildfire Reducer

Transparent Water Base Acrylic Paint Thinner

Specifically formulated for use with all Wildfire Visible and Invisible Luminescent Paints allowing you to thin these paints without affecting their luminescent properties and without causing them to run or drip during application. Wildfire Reducer is water-base and cleans up easily with soap and water. Not for use with Wildfire Invisible Clear Color Paints.

Features:

- Artist quality 100% acrylic latex base
- Ideal for all Wildfire visible and invisible luminescent paint colors
- Thins without bluing or shifting colors under black light
- Water-Base cleans up easily with soap and water
