

Wildfire

Sheen Leveler

Invisible Clear Color Paint Sheen Leveler

Specifically formulated to eliminate the visible variation in sheen between the painted image and the surrounding area. Images created with Wildfire Invisible Clear Color Paints may still be detected in visible light due to variations in the sheen. To eliminate the visible variation in sheen, apply Sheen Leveler over the painted image and the surrounding area. Wildfire Sheen Leveler is the ideal protective top coating for all Wildfire Invisible Clear Color Paints. Wildfire Sheen Leveler dries quickly to a smooth flat sheen, that is water resistant and flexible.

Features:

- Artist Quality Flat Sheen Retains Clarity Without Bluing Under UV Light
- Ideal for use over all Wildfire Invisible Clear Paint Colors
- Dries quickly to smooth flat sheen that is water resistant and flexible
- Water-Base Cleans up Easily With Soap and Water
